Staying in the hospital for high blood pressure [PA1]	5%	7.0
Staying in the hospital for alcohol or drugs [PA7]	6%	3.6
Staying in the hospital for asthma [PA1]	5%	1.0
Gonorrhea in children 10-19 years old [PA5]	1%	0.4
Staying in the hospital for diabetes (high sugar) [PA1]	0%	0.0

*Based on top 10 ranking out of 32 indicators from the ten priority areas; highest score equals highest rank

Summary of Responses to: What else do you think would be helpful to improve health in your community?

Public education and health coaching. (*Downtown*)

1. Create more employment opportunities with living wages
2. Improve school system
3. Create affordable housing
4. Create more recreational opportunities/places
5. *Reduce poverty (*Mt. Washington, list for City of Baltimore*)

Violence (*Upper Park Heights*)

Need at least some attention to older adults (65-70+) as a growing problem (*Hunting Ridge*)

Annex 2
Ranking results

Caregiver supports + services. Paid caregiver training. Dementia screening + support programs. Evidence based fitness programs for older adults. Promotion of affordable housing with access to services for older adults + disabled adults. Peer coaches + mentors for older adults. Rehab senior centers throughout the city. Revise Medicaid to allow more HCBS. (*Bolton Hill*)

Just a cleaner Baltimore (*West Arlington/Grove Park*)

Safe parks for youth (*American Indian Community*)

Recreation opportunities for youth.

Rat eradication. (*Southeast Baltimore*)

Neighborhood Health Initiative
